

Universal Human Rights in Theory and Practice

by *Jack Donnelly*

Synopsis

In a thoroughly revised edition of *Universal Human Rights in Theory and Practice* (more than half of the material is new), Jack Donnelly elaborates a theory of human rights, addresses arguments of cultural relativism, and explores the efficacy of bilateral and multilateral international action. Entirely new chapters address prominent post-Cold War issues including humanitarian intervention, democracy and human rights, "Asian values," group rights, and discrimination against sexual minorities.
